LATEST NEWS from W7GJ, dated 2012-08-14:

The callsigns for the Niue JT65 EME operation next month will be:

E6M - 6m

E6RS - 2m

I have updated my website to include information on how to update your WSJT program to include these calls as well as include the E6 prefix:

<http://www.bigskyspaces.com/w7gj/Niue2012.htm>

Please watch for us on EME! GL and VY 73, Lance

NEWS by W7GJ, dated 2012-09-03:

Hello! Well, I wanted to provide as much advance time as I could so you could mark your calendars and/or get everything in your 6m station optimized by the end of August ;-)

As those of you know who completed JT65A mode contacts with me on 6m EME when I was in E51, 3D2 and 5W, I will do my best to set up and be active during our common moon windows - especially during the optimum days of the month for 6m EME.

The callsign is not in hand yet (but assured by email), and the QTH has not been finalized, but all the plane tickets have been purchased (as usual, any contributions are VERY welcome), and the equipment (a KX3 portable transceiver with compatible 6m amplifier) is in the works. As soon as the license is in hand, the information will also be available under the callsign on QRZ.com.

In the meantime, preliminary information about the DXpedition is here:

<http://www.bigskyspaces.com/w7gj/Niue2012.htm>

I don't know if it will be possible to find a QTH that provides my usual preference for a takeoff shot

over water on moonrise. However, that is not necessary to work NA stations during their moonsets (I will be elevating),

so we will get the ground gain on YOUR end for that ;-). And if a QTH with a good moonrise shot (for EU moonset)

cannot be found, it is quite likely that we will instead wind up with a good moonset over the water for the EU moonrise.

Currently, ZL1RS is planning to activate ZK2 on 2m EME during the same time period, as we did together from E51 and 3D2;

Bob's call will probably be his old callsign of ZK2RS. More details will be posted on the above website as the departure

time at the end of August gets closer.

I am very much looking forward to giving you a new one on the Magic Band! GL and DX! VY 73, Lance

** DXCC: SV9 ; Crete ; Square: KM25 ; start 2012-10-01

Bodo, DF8DX, qrv from SV9 on HF and 23cm EME

Equipment will be like on my previous DXpeditions IC7000 with transverter (100W) and 59ele yagi.
call: SV9/DF8DX

Grid: KM25 (exact locator will be given later)

IOTA: EU-015

Activity on 23cm EME:

October 2, 2000-2130z (for EU)

October 3, 0400-0600z (for NA)

with backup dates:

October 3, 2030-2200z (for EU)

October 4, 0430-0600z (for NA)

Frequency: TX first on 1296.090MHz / RX on my own echo frequency (just like in CW)

I am one week on SV9 but I would prefer you work me on the suggested times because i want to spend some time with my wife on this vacation and also enjoy some HF (CW only) activity as well as maybe activity from EU-187. Further skeds on request (if necessary). Check www.mmmonvhf.de for updates.
